## U. F. A. MEETING TO HEAR JIM WEIR

### M. L. A. Will Be Here Saturday to Talk Of Political Affairs in Province

James Weir, M.L.A., will be here on Saturday to address the meeting of the U.F.A. local which will be held in the Oddfellows Hall, commencing at half past two. He will have for his subject "What is doing at the Provincial Legislature," and is bound to be interesting.

Some little disappointment was felt a few weeks back when Mr. Weir was prevented from addressing the members of the U.F.A., so there is bound to be a big turnout to hear him on Saturday.

### CHARGED WITH THEFT OF MUSKRAT SKINS

On Saturday, March 8th, Herbert Nelson and Merle Gordon appeared before E. J. Charters, J. P., at the police barracks, charged with the theft of sixty-five muskrat skins, Corpl. Allen prosecuting. There was also a further charge preferred by the Chicago Hide and Metal Company of Calgary, against both accused persons, the charge being that of obtaining the sum of seventy-six dollars under false pretences.

Nelson pleaded guilty to both charges, and after the evidence had been submitted for the prosecution he was committed to the Lethbridge gaol to await sentence by the next Court of Competent Jurisdiction which will be held at Calgary at the end of the present month.

Gordon was admitted to bail on his own recognizances to the amount of \$2,000, two sureties of \$1,000 each.

Snow has fallen the greater part of to-day, and it is colder than it has been, for some days.

## GUNNER BLAXALL WRITES FROM FRANCE

### And Speaks of the Joy There Was When the Armistice Was Signed

The following items from an interesting letter recently received from Gunner Clarence Blaxall, will doubtless prove of interest to his friends in Vulcan.

"I entered the line on the 27th of August in front of Arras. From Arras we worked to Cambrai, then we went North through Douai on to Rouet, where we met the first civilians, through Demain and from there to Valenciennes, and finished on the right of Mons, so you will know by what you have read in the papers what I have been through. I was only in the line about four months, but it was quite enough to do my bit and experience the worst fighting of the last four years. Cambrai was tried for twice by the British and once by the Americans, but it took the Canadians to take it. The Germans drained all their fronts to stop the Canadians but it was no good. It cost a lot of lives, not only to our own battery, but to the whole corps. It was after Cambrai that we knew we had them beaten as you could see them weakening every day. The 11th of November was a surprise to us all as we had not seen the papers for quite a while and did not know how things were going, and the night before the armistice we worked practically all night for a big surprise on the Germans. The surprise came off alright, not only on the German side but to us as well. There was a great old cheer when the last shell was fired from our battery. A few days after that we pulled out of Mons and the whole corps started out to Germany. The first and second division who were attached to the army of occupation went over the Rhine into Germany, and we

### ASSIST CO-OPERATIVE MARKETING—ONTARIO AND SASKATCHEWAN

In the Provinces of Ontario and Saskatchewan a director of co-operation and marketing instructs the farming community as to the advantages of co-operation in disposing of their farm products. Assistance is given to inexperienced men to enable them to organize in a way to avoid mistakes and to assist them to systemize and simplify their business transactions. These men are supported by funds provided by the Dominion Government under the Agricultural Act. According to the report on the work done under this Act in 1917-18, thirty-five associations in Ontario did business to the amount of \$900,000, while Saskatchewan ran over the \$2,000,000 mark. This is but one of the many activities assisted and dealt with in the report which is distributed by the Publications Branch of the Department of Agriculture at Ottawa. Under this Act, Ontario among other Provinces is extending the teaching of household science to rural schools. Through the funds provided school boards purchase equipment especially suited for one-roomed schools. These are especially valuable for rural schools as it enables children to partake of a warm lunch at the noon hour. Household science thus does not consist of cooking only, but also includes lessons in cleaning, general household management and sewing. Manual training is also provided for by instruction in simple mechanical drawing and the use of tools in making articles for the farm and farm home. Education of this type is referred to in the report as both cultural and practical.

Frank Convery, alleged deserter from the 181st Battalion at Camp Hughes in 1916, escaped from the custody of a provincial police officer on the Grand Trunk Pacific train into Regina Monday and is still at large.

### HAD MOTHER-IN-LAW UP FOR ASSAULT

Albert Laartz brought a charge of assault against his mother-in-law, Mrs. Kasper Kuhn, who, he said, had assaulted his wife. The case came before E. J. Charters on Tuesday of this week. Mrs. Kuhn was bound over to keep the peace for one year. Kasper Kuhn was also charged with a similar offence against Albert Laartz, the latter asserting that Kuhn had struck him on the chest. Kuhn pleaded guilty to the impeachment, and was ordered to pay the costs of the Court and to keep the peace for one year.

### ARRESTED FOR VAGRANCY

Ole Silverston was arrested at the C.P.R. station at Vulcan, last Saturday, and was charged with stealing a ride on the blinds of the passenger train, and with being a vagrant.

He appeared before E. J. Charters the same day, and was sentenced to fifteen days hard labor in the provincial gaol.

were in reserve up and down the border. We have been over lots of country, had some good times, and seen sights well worth seeing. I had two days leave in Cologne, Germany. Now we are in a town called Wavre. I expect to visit the battle ground of the battle of Waterloo.

"I was in quite a fight with some Americans; a few of them started blowing about how they had won the war, and we boys would not stand for it after having been over here for the past four years.

### SPECIAL SERVICES IN VULCAN CHURCH

The Rev. A. R. Schrag announces special services for the next three Sundays.

On Sunday morning, March 16th, Mr. Schrag will preach a special object lesson sermon on Candles specially adapted for boys and girls.

On March 23rd, in the evening, the service will be largely a song service, ten of the most popular hymns will be sung. The discourse will be on the matter of music in religious services.

At the morning service on March 30th, there will be an ordination of an elder and a reception of the members of the Church. Holy Communion will also be dispensed.

## TO GIVE WELCOME TO LOCAL BOYS

### Hearnleigh Preparing Neigh- borly Welcome For Two Local Soldiers

Jack Carruthers and Harry Amey, local soldiers recently returned from Overseas, are to be the recipients of a welcome home by the members of the Hearnleigh community. The welcome home will take place on Friday, March 21st, when all neighbors are invited to turn out and give the returned soldiers the warmest of welcomes.

This social was originally intended to take place on March 7th, but for unavoidable reasons it had to be postponed until the above date.

Edmonton bonds are now being offered for sale in Portland, Oregon, as well as other coast cities. A recent issue of the Portland Oregonian contains a large advertisement offering \$180,000 worth of City of Edmonton gold notes due in 1924 and 1927 with interest payable half yearly.

Unconscious for 57 days from the effects of typhoid fever, Adelaide O'Dowd, a 16-year-old school girl in Kansas City, Mo., is now being given liquid food without the use of a tube. Small quantities of food placed far back in the mouth are swallowed instinctively.

The two rinks from Vulcan attending the Lethbridge Bonsel last week managed to get as far as the fourth before they were beaten. All the players had a good time, and speak highly of the fine sport they enjoyed at the games.

## CO-OPERATIVE SOCIETY HOLD ANNUAL MEETING

### New Directors Elected; Farmers Asked To Do Live-stock Shipping Collectively

The annual meeting of the Vulcan Co-operative Company was held at the Oddfellows Hall on Monday of this week, when there was a fair attendance of members present, considering the state of the roads.

O. L. McPherson occupied the chair. The reports of the auditor and the directors were received, and after a little discussion they were adopted.

The newly elected directors are Messrs. O. L. McPherson, L. F. Dawson, D. Doane, E. J. Charters, F. M. Maiden, Frank Shaw and J. G. Rowe. The officers will be elected at the directors' meeting, which will be held on Saturday afternoon of this week at the offices of the company.

The reports showed that good progress had been made during the past year despite the unfavorable season, and the position of the company today is better than it ever was. An eight per cent dividend was declared on paid up capital, payable to credit the proper amount to each shareholder's paid up capital held. In the course of discussion the manager

### REID HILL WOMEN'S INSTITUTE MEET

The regular meeting of the Reid Hill Women's Institute was held at the home of Mrs. Jim Marshall, on Wednesday, March 5th; eleven members being present.

A very interesting paper was given by Mrs. W. Myers, the title of which was "The business of being an Institute member." A guessing competition was nicely arranged by the hostess.

The next meeting will be held at three o'clock at the home of Mrs. W. Myers. All members are requested to be present as the delegates to the Institute Convention at present being held in Calgary, will give their report of the proceedings.

Mrs. M. C. Hawkins is the secretary of the Reid Hill Institute.

### BLACKIE NEWS

The I.O.O.F. dance on Friday evening last, held in the Blackie Auditorium, while not largely attended proved to be a very enjoyable social function. The dancing was thoroughly enjoyed by all and the supper served was par excellent.

In the Red Cross report for the High River Constituency we observe with considerable pleasure that Blackie district contributed the sum of \$4886.22.

John Johnson of Blackie district blew into High River last week and while here he had a whale of a time. He got a hunch that he was a horse trader and buyer, and he bought and traded horses, sleighs and harness, and he issued cheques promiscuously on the bank at Blackie. He was doing a land office business until the cheques were returned from Blackie marked "N.S.F." and then the fun commenced.

Provincial Police Houghton interviewed Johnson and pointed out to him the seriousness of issuing cheques without having a balance in the bank, but the warning was not heeded. Finally Johnson appeared before Magistrate McCorquodale, and a number of his creditors, and upon Magistrate McCorquodale's warning to him of the danger he was running in, he finally consented to the sale of several of his nags to defray the total amount called for by the cheques issued. It was Mr. McCorquodale's first case as a magistrate and he maintained a very fair attitude in his bearing of the case. He urged Mr. Johnson to go back to his farm work at Dinton and leave the place of the horse trading business, otherwise he would lose the earnings of three years in short notice.

## W. S. S. COMMITTEE IS FORMED LOCALLY

### Sergt. Gittus Calls Meeting And Organizes Town To Boost W. S. S.

On Friday last Sergt. Gittus visited Vulcan, called a meeting of the business men and explained the best methods of boosting and popularizing the W.S.S. As a result of his explanation and the interest taken in the matter, a local committee was formed which will bend every effort towards popularizing Thrift Stamps and getting everybody interested in them.

Sergt. Gittus outlined in his remarks what was being done in other centres in the matter and urged upon the citizens of Vulcan the necessity of doing all in their power to support this method of raising money for the country. It was a method whereby nobody felt the pinch or hardship but instead they drew interest on all small amounts they lent to the country by buying stamps.

Following these remarks the matter of a local committee was taken up and the following business men were appointed: Geo. W. Buck, chairman; W. A. Howes, secretary; executive committee: G. B. Dalton, A. M. Trail, H. W. Noel, H. W. Reeves, F. L. Simington, E. E. MacIntosh, J. Naismith, Geo. E. Pettman. Publicity committee: Arthur Mitchell, convenor; H. J. Maber, J. McAlpine, J. A. Lindsay, R. W. Glover, H. C. Jacques, Mesdames R. Walker, G. M. Whicher, Denbigh, R. K. B. Knowles. School committee: The Board of Trustees and the teachers.

A motion was passed requesting the secretary to write to each School Board in the district requesting them to inaugurate Thrift Stamp campaigns by a donation of a stamp to each pupil.

As a result of the meeting Thrift Stamps are to be obtained in any of the places of business in town. They will be offered instead of change. Every effort to popularize the Thrift Stamp will be made and the local committee ask the people of the community to assist them in making the effort a success.

## SCHUBERT SEXTETTE HERE ON MARCH 26th

### They Are One of the Best Musical Aggregations On The Lyceum Circuit

The Schubert Sextette which will appear here on March 26th, on the Lyceum Course, is recognized as one of the foremost ladies musical organizations upon the platform. These six charming young ladies present a programme not only of genuine musical merit but filled with life and snap. Each member of the Schubert organization has been chosen for her musical ability and seldom indeed is it possible to secure six such splendid artists, all rich in natural musical ability, rich in natural endowment, finished in culture and experience.

The Schuberts will appeal to all, featuring as they do both popular and classical music without too much of either. But for those whose musical discrimination is particularly exacting, there are several points in connection with the Schuberts specially worthy of consideration. For instance the instrumentation comprises stringed instruments alone, which is the strictly legitimate instrumentation for a six member orchestra. The advantage of this arrangement is that the tone is always evenly balanced whether the orchestra is playing a loud or a soft measure, whereas, with the average six member orchestra, the drums and cornet usually drown the rest of the orchestra.

Varied and versatile in the extreme is their program; instrumental solos and duets, orchestral numbers, readings, songs, and costumed selections. There is plenty of fun, good music, light music, and just real music in their program. Hear them at the Community Theatre, on Wednesday, March 26th.

### LOCAL NEWS ITEMS

The weather during the past week has been milder on the whole, many of the days witnessing a heavy thaw. A change for the colder occurred last night, accompanied by a wind from the North and a slight flurry of snow.

Formaldehyde and Mayer's Gopher Poison now in stock at the Vulcan Co-operative Company.

Tanlac, the master tonic, can be purchased in Vulcan at the D. C. Jones Drug Store.

Hear "The Beautiful Ohio" and "Till we meet again" on the Victor record at the D. C. Jones Drug Store.

The dance given by the members of the Oddfellows Lodge last Friday evening was well attended. The music was splendid, and so was the supper, and everybody had a good time.

The 17th of Ireland will be commemorated by the Rebekahs who are giving a public dance on that evening in the Oddfellows Hall. The catering will be done by the members, and so there is a good time in prospect for all who attend.

Mr. and Mrs. John A. Smith left last Thursday for Montana where they will spend two weeks visiting their daughter Mrs. Schwenn.

Mrs. J. L. Kehr was a Calgary visitor last week.

Miss Jackson, of Calgary, is at present in Vulcan visiting her sister, Mrs. A. Mitchell.

H. L. Smith left on Saturday for the coast, where he is spending a month's holiday.

Mr. J. L. Prout, of the Dawsonless Manufacturing Company, was in Vulcan the beginning of this week.

For the best Grain Pickler go to the Vulcan Woodworkers.

Mr. H. C. Daines, who is going to locate in Vulcan in the shoemaking business, expects to be here any time now. He will have his business premises in the Rochon Block.

### LOCAL NEWS ITEMS

Mrs. M. C. Hawkins, the official delegate for the Reid Hill Women's Institute, left on Monday for Calgary to attend the Women's Institute Convention which is being held in that city this week. Other representatives from Reid Hill—Mrs. Gordon McKay and Mrs. Jack Marshall.

Mr. W. H. McPherson, Chiropractor, who has been in Calgary for the past two weeks, returned to Vulcan at the beginning of the week.

The Misses M. Glidden, B. Thomas, E. Stone, E. Wilson, E. McCliment, Edna Rannels, Dora Rannels, O. Rannels, Verley McQueen, and Dorothy McQueen, and Messrs McLeod, McMillan, Davis, Fitzpatrick, Atkinson and Leverington, formed a sleigh party last Thursday night, and went to the Rannels' Ranch, where the evening was pleasantly spent in singing and dancing, returning home after a dainty lunch had been served. The party was chaperoned by Mr. and Mrs. G. Meyer.

The cold weather prevented a number of people from seeing the Co-respondent, shown at the Community Theatre on Tuesday evening. It was a very good film. Mr. Meyer has "The Whip" coming at the end of this month, and "Hearts of the World" early in April. These are two films which everybody ought to see. "The Whip" is full of interest and excitement from start to finish. In it one of the best horse races ever filmed is shown. And there is also a race for time between an auto and an express train. Some real pep to the show. Be sure to see it.

The Schubert Sextette is the fifth and final entertainment under the auspices of the Lyceum, and is booked for March 26th.

### TARIFFS ARE TO THE FRONT

It appears that the matter of the tariff reform is shortly to come to a head. Notwithstanding the statements of some members at Ottawa that the subject should give way to business connected with repatriation and reconstruction problems, tariff reform is billed for early discussion and probable amendment. Mr. H. W. Wood, President of the U.F.A., has requested all locals to bombard the government with telegrams, and he says in characteristic manner: "We don't want them to get weak-kneed down there. What we are asking is perfectly just in spite of the high sounding arguments the high protectionists are using to confuse the gullible."

Nothing could please the West better than this. For years it has raised its voice against the iniquitous manner in which revenue was raised by indirect taxation behind which the manufacturers fleeced the people of Canada of millions of dollars annually. At first it was one calling in the wilderness, but as time has gone on the population of the West has become educated to its most crying need and to day its voice can be heard echoing among the benches at Ottawa, demanding that some relief be given to the people upon whom the tariff falls most unjustly and harshly.

As a matter of reconstruction no fairminded person can see why tariff reform should not be in a prominent place, and it is good to see that some of the Western members are taking this view, despite the contrary arguments of the protected few. Of all the necessities in reconstruction that of tariff reform should occupy a front place if what is meant by reconstruction is putting the country on a sound economic basis in order to be the better able to withstand the after effects of war. The bolsters of protection is one of the anomalies in a country which aims to be prosperous and self-reliant. No country can deceive itself on that score any longer and the sooner the West gains its demands for a greatly lowered and gradually diminishing tariff wall, the better for Canada, despite the protestations of the private protected interest.

### ALBERTA'S MEN, WOMEN AND CHILDREN CONCERNED

It is not the big fellows who are going to count in the war savings campaign to much as the average citizen, and in this case "average citizen" means men, women and children to whom 25 cents and \$4.00 are tangible and not negligible sums. Every cent and every dollar that Canada can scrape together will be required for the extension of farm operations, the financing of crops, the development of resources, the building of railways, the establishment of industries, caring for disabled soldiers and their dependents and for the widows and children of those who gave their lives for their country and putting soldiers on the land and in other employment. Every cent that can be gathered will be needed and the more that is gathered the more Canada, and especially Alberta, will benefit. This is outside the question of the attractiveness as an investment of the Thrift and War Savings Stamps. Every Albertan when he and she realizes the importance of supporting the Thrift Campaign will back it with one hundred per cent efficiency. The great thing is to get them to know how important to them and to everybody the movement is. Let everyone who knows how essential the campaign is preach its gospel.

### WILL PRICES COME DOWN

Production and demand rules the world's markets at all times. Can we keep up with demand? Europe has neither food or clothing in any thing like sufficient quantities; in view of the situation it is hardly possible that your grain, cattle, horses or in fact almost anything grown or sold in Canada can go down in price. From a Paris authority we learn that the Roumanian Government has made arrangements for \$25,000,000 credit with Canada. This credit will be distributed for the purchase of Canadian goods as follows:  
\$5,000,000 in raw materials.  
\$5,000,000 in foodstuffs.  
3,000,000 in woollen goods, ready-to-wear.

Balance will be made up of purchases of seed grain, of which they are in great need, and in farming implements and general equipment.

Not only are the Roumanians hungry but they are also in great need of clothing. An instance will serve to illustrate: One Hamilton firm, manufacturers of Ready-to-Wear garments, have sold every overcoat in stock for immediate shipment. Delays are caused by lack of bottoms to move goods.

France and Belgium are making negotiations like to those of Roumanian. One of France's greatest needs seems to be in the way of farming implements. Geo. Ford, head of the Red Cross Reconstruction work in France, has listed agricultural machinery needed by France as follows:

81,000 plows.  
56,000 cultivators.  
30,000 mowing machines.  
115,000 farm wagons.

88,000 harrows.  
50,000 rollers.  
48,000 hoes.  
36,000 seed drills.  
18,000 fertilizers.  
16,000 beet extractors.  
21,000 winnowing machines.  
18,000 horse-drawn rakes.  
32,000 reapers and binders.  
53,000 root cutters, besides other arm implements.

There are now no horses in the devastated portions of France, though here were 242,000 in 1915 and 607,000 in 1917.

The demands of other European countries will not be less. It looks as if it will take some years to overcome the results on the devastated areas where was fought the battles of the World War.

### IMPORTANCE OF WAR SAVINGS PLAN TO WESTERN FARMERS

The success of the War Savings Campaign is of vital interest to the farmers of the West. It is hoped that through this means money may be placed at the service of the Dominion Government so as to provide exports of agricultural products.

Speaking on the subject of finding a market for the exportable wheat surplus, J. A. Maharg, M.P., president of the Saskatchewan Grain Growers Association, said at the recent provincial convention of that body:

"The grain growing countries will have to supply the major portion of the credit of purchase and that point will have to enter into the price fixing of your grain. You will have to finance it within yourselves very largely, regardless of whether the price is fixed or not."

James Robinson, managing director of the Saskatchewan Co-operative Elevator Co., also said:

"If Canada's grain is to be marketed someone must provide credit. The European countries may want our wheat, they may be starving for it; but they will be unable to purchase it, and the only way out, as I see it, is for our government to provide credit, as has been done in the United States. Unless the Canadian Government steps in we will not be able to sell."

It would be difficult to quote two better authorities on the subject than these two men. It should be remembered that the ability of the Dominion to grant credits is based very largely on the extent to which the people place funds at the disposal of the Government. The War Savings Plan will help to do this.

### NOTES

Whatever people may think about the Germans the fact remains that they have got to be fed if further trouble is to be saved.

The Hail Insurance Act is now certain to go into force despite the adverse vote in some parts of the north.

Germany says she will not hand over her merchant ships to the Allies seemingly oblivious of the fact that the Allies might step in and take them.

After a lengthy silence Sir Sam Hughes has burst into the limelight again with the subject of whether the war was or was not scientifically won. Men who were at the war don't agree with him, and they should know.

The British parliament is introducing a bill which has for its purpose the extermination of rats. A similar article of government directed against the gopher in this country might be worth while.

The warm days are melting the snow nicely and much of the moisture is getting into the ground, which is a fine thing for the country.

According to a report there is an effort to create a permanent Union political party in Canada. The effort was not unlooked for but as to how much confidence the result will inspire is uncertain.

The government printing press at Ottawa has been characterized by a commission of enquiry as wasteful and deficient, and an effort is to be made to put it on a business footing. The real trouble was evidently one of patronage.

Thrift stamps may appear to be small fry when compared with Victory Bonds but never forget that they are good workers.

Daylight saving is at the mercy of reports at present. First it is not to be enforced, then it is to be a law of the land, and not even daylight itself knows how it will be dispensed.

Now is the time to prepare for Spring work by getting your harness oiled and repaired by

NOT PROBABLE THAT  
ALBERTA WILL USE  
ONTARIO SEED OATS

J. M. Stewart, of Dominion Seed Branch, Says Bulk of these Oats Sent West Will Be Used in Manitoba and Saskatchewan

The half-million bushels of super-quality Ontario seed oats, which have been shipped to the western provinces for seed purposes, will be used chiefly in Saskatchewan and Manitoba, and is hardly likely that any of them will be used in Alberta as there are enough here to meet the requirements of the farmers," was the statement made on Wednesday by J. M. Stewart of the Dominion seed grain branch. Mr. Stewart further remarked that there was absolutely no doubt as to the germination test made of these oats, and that they were of the very best quality for seed purposes.

Regarding the comments made about the quality of the oats in question, Mr. Stewart said that they were probably made because the Ontario oat was a long, thin oat, and not as plump looking as the Western oat. This made no difference, for if the germination test was high, they would grow perfectly well. It is not the thickness of the hull that counts, but the meat that is inside. Mr. Stewart recollected the occasion when the large quantities of seed oats were shipped from England, and there were quickly adapted to Western conditions of soil and climate and produced the heavier berry.

HAIL INSURANCE  
VOTE FAVORABLE

Returns Show 39 Municipalities of Necessary 45 Are in Favor

The Government Hail Insurance Act is now practically certain to go into operation in the Province this year, latest returns from the Municipal Districts voting on it showing that of 76 which have reported, 35 have voted for, 37 against, and about 70 are yet to be heard from.

As a minimum of 45 Municipal districts must vote in favor of the Act to bring it into operation, it is assured that there will be sufficient in favor in the remaining districts to be heard from to make the Act law.

According to E. H. Malcolm, chairman of the Provincial Hail Insurance Board, every district where speakers went out to explain the Act, it carried. By its terms, the Act does not come into operation in the districts which voted against it, but individual farmers in these districts who desire to come under its terms may do so on application. On the other hand individual farmers in districts which voted for the Act, who do not desire to be brought under it may withdraw by giving notice prior to May 1st.

\$700,000 FOR SEED GRAIN IN  
NEXT THREE MONTHS

This is the Amount the Alberta Government is Willing to Stand Security For

Rate of Interest on Loans is 7 per cent., and Notes Will Mature November 1.

That the Provincial Government will stand security for an advance of over \$700,000 in the purchase of seed grain throughout Alberta during the next three months, was the announcement of the Hon. Duncan Marshall in the Legislature Friday.

The house dealt with the new seed grain act in committee of the whole and agreed to amendments proposed by the Minister of Agriculture permitting loans up to \$350 of which sum up to \$90 may be expended in purchasing feed for Spring work, this feed to consist either of grain or hay or both. The rate of interest upon the loans is placed at 7 per cent and the notes will mature November 1, although definite assurance was given by Mr. Marshall and by Premier Stewart that it is not the governments intention to press any farmer for payment at that time when the circumstances would appear to warrant a further extension of time.

Two Divisions

The House divided on the endorsement of the motion to make the notes mature November 1, Jas. Weir and others in the minority contending that the date should not be before December 1. Another division of the house in committee, which did not follow party lines, was that of establishing a lower schedule of license fees for billiard rooms outside the four cities of Edmonton, Calgary, Medicine Hat

UNLIKELY OTTAWA WILL PASS  
MEASURE TO SAVE DAY  
LIGHT THIS YEAR

Though the U. S. Congress concluded its labors without repealing the daylight saving bill, it is hardly likely that the Canadian Parliament will pass a measure to continue the system which advanced the clocks of the Dominion an hour last year. There has been so much opposition to the scheme on the part of the organized farmers both in the West and Ontario introduction this year would be too unpopular.

MARKET WHOLE OF  
U. S. CROP WITHOUT  
LOSS TO THE GOVT.

Hoover Thinks There Will Be No Difficulty; Price Would Be High On a Free Market

Herbert Hoover, United States food administrator, asked whether the United States would lose the billion dollars appropriated to support the guarantee for next year's wheat crop, said:

"The question of government loss, if any, would revolve around several different factors. First, whether we or the world will have any surplus from the 1918 crop to carry over into next year. Second, what the supply and demand will be for the 1919 crop; and third, whether the government should deliberately decide to take a loss in order to lower the price of bread.

"As to the supply and demand for the 1918 crop, changes in the world demand during the last month, shown by widespread investigation of the food needs of Europe, indicate that there will be no surplus to carry over into the 1919 crop.

"The needs of Europe are larger than our previous estimate. Altogether the balance of the supply and demand for our present wheat now looks as though we might see wheat at \$2.50 a bushel as it was in the Spring of 1917, if there is a free market in wheat and uncontrolled prices. So much for the 1918 crop. There can be no free market of 90 per cent of the world's exports. Wheat is controlled by the wheat executive in London.

"As to the 1919 crop, it is, of course, too early to come to any precise conclusion. Our crop looks anything from 10 to 20 per cent greater next year than last year.

"Therefore, to all present appearances, it should be possible to market the whole of next year's crop without loss to the government.

"As to whether the government will deliberately take a loss below the price of \$2.26 a bushel in order to lower the price of bread is a matter that will have to be determined by the officials of the day. It appears to me the price of wheat, if there is a free market, may be above \$2.26, and in any event such a loss would be a direct subtraction from the bread prices just as it is now paid in most of the European countries.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, Friday, the 18th April, 1919, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, twice per week on the

VULCAN RURAL ROUTE No. 2, from the 1st July next.

Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of tender may be obtained at the Post Offices of VULCAN, HEARNLEIGH and ARROWOOD and at the office of the Post Office Inspector.

## AT THE LEGISLATURE

Mr. McCallum of Vegreville intro-  
duced a resolution to the effect that  
the House approve of a contribution  
of \$2,000.00 to every soldier. The  
soldier members of the House almost  
unanimously resented this and con-  
sidered that it was an interference  
with the negotiations now being car-  
ried on by the Great War Veterans  
Association. At a meeting of the  
Provincial Executive of this Association  
held here on Sunday it was de-  
cided that no action be taken in re-  
gard to this propaganda and that the  
discussion of the question should be  
left to the various locals. The fact  
that Mr. McCallum was the represen-  
tative from Vegreville which district  
contains many aliens did not mitigate  
the bitter opposition on the part of  
the soldier members.

Dr. Stanley has introduced a mo-  
tion which has been agreed to, which  
calls for information respecting the  
prescribing of liquor by doctors in  
the cities of Calgary and Edmonton.  
The opinion is that a doctor is a pub-  
lic servant and that the public have  
a right to know the amount of liquor  
that he is dispensing to the public.  
It is thought that some physicians  
will not be too well pleased to see  
their names attached to the prescrib-  
ing of unreasonable quantities of  
liquor.

The Minister of Public Works has  
under consideration the construction  
of a trunk road which is to leave the  
main North and South trunk road  
running Eastward and Southward to  
Lethbridge.

Three propositions are being con-  
sidered.

(1) A trunk road to run Eastward  
from the town of High River via  
Frankburg, Brant and Vulcan.

(2) Leaving Cayley Eastward via  
Vulcan.

(3) Leaving at Nanton immediately  
Eastward to a point 4 miles South  
of Vulcan then Southward.

Representations have been made  
from citizens of all these interested  
localities but the Minister is with-  
holding his decision until Spring.

The question of rural telephones  
has been receiving much considera-  
tion by the Government and Dr.  
Stanley has been pressing the inter-  
ests of his constituency. It is con-

currently rumoured that the rural  
telephones will be constructed on a  
frontage basis. That is if a district  
wishes to secure a rural telephone  
line it will proceed by petition in  
much the same way as local improve-  
ments are initiated in towns on the  
frontage system. If enough rate-  
payers consent to the construction the  
Government will then proceed with  
the construction of the line and  
charge against each parcel of line  
its fair proportion of the expenses in  
connection with such construction.  
This charge will apply to all land  
passed by the telephone line.

Your reporter has good grounds to  
believe that this will be the Govern-  
ment policy but will advise you  
definitely in a later report.

Following the representations of  
several members from Southern Al-  
berta to the Soldier's Settlement  
Board in respect to the huge grazing  
leases in South Alberta and the ad-  
visability of expropriating them for  
the settlement of returned men,  
comes the announcement from Otta-  
wa that an investigation commission  
has been appointed to report on these  
grazing leases as possible locations  
for returned soldiers.

Deputations of women have visited  
the Government to protest against  
the Bill for Widows' and Mothers'  
Pensions. The Bill provides that a  
widow or mother, whose husband is  
confined to an asylum, may be given  
a maximum of three dollars per week  
for each child, and that the grant be  
divided equally between the munici-  
pality and the Government. The  
mother must prove her poverty to  
receive it.

Before the Public Accounts Com-  
mittee today Mr. Connor of Calgary  
testified that R. J. Daly, Provincial  
Publicity Commissioner, negotiated  
with him to sell lands in South Al-  
berta to the Mennonites, and that  
commissions in connection with the  
sale be split. Daly insisted upon  
four or five dollars per acre. Con-  
nor swore that Daly gave as his  
reason for demanding the large com-  
mission that he had to share his  
commission with Hon. Duncan Mar-  
shall. Mr. Marshall swore that he  
knew absolutely nothing respecting  
the matter.

## BAILEY—WELCH

A very pretty wedding was sol-  
emnized at the home of Mr. and Mrs.  
R. J. Riddle of Davisburg, Alberta,  
on Thursday, February 27th, when  
one of their young friends, Miss  
Nina B. Welch was united in mar-  
riage to Frederick H. Bailey of Al-  
sask, Saskatchewan. The bride was  
very prettily dressed in white em-  
broided Marquisette and white satin  
carrying a bouquet of white roses and  
ferns, entered the parlor leaning on  
the arm of Mr. Riddle, while the  
brides mother sang "The voice that  
breathed o'er Eden." The Rev. Mr.  
Clark of De Winton performed the  
ceremony. About twenty friends of  
the contracting parties sat down to  
dinner after congratulations. The  
bride was the recipient of many use-  
ful and beautiful gifts. The brides  
travelling suit was of fawn serge,  
with a blue hat and touches of fawn  
to match. Mr. and Mrs. Bailey left  
mid cheers and showers of rice on  
the evening train for Banff, Calgary  
and other points.

## RED CROSS SOCIETY ASKING FOR SUPPLIES

To Help Out in the Relief Work  
Which is Being Done in Alberta.

That there is need for old clothing  
provided that it is clean and mended,  
for cases of hardship in the Province,  
is pointed out in the following let-  
ter which has been circulated from  
the Red Cross headquarters in Cal-  
gary.

In connection with the relief work  
which the Red Cross Society is do-  
ing in the Province of Alberta, as  
a result of the necessities which have  
arisen from the influenza epidemic,  
we find that in many cases, left off  
wearing apparel can be used to great  
advantage. It has been suggested  
that possibly our local branches  
would like to help us in this work by  
collecting such articles and forward-  
ing them, if suitable for this class  
of work, to the Provincial Depot.  
You will readily understand of course  
that it would be a useless expense  
to forward goods without supervi-  
sion, as only clothes which are in a  
good state of repair, and made of  
suitable materials, could be used.  
Such things as shirts, waists, stock-  
ings, coats and skirts, men's wom-  
en's and children's underclothing,  
men's suits, overcoats if clean and  
mended, all are very acceptable to  
us.

We would be glad to hear from  
families who find it difficult to pro-  
vide sufficient clothing for themselves  
you whether you think that in your  
district, it would be possible to col-  
lect a box of such articles, and if so,  
whether you are willing to undertake  
collection, and also to see that they  
are in a fair condition before for-  
warding.

Yours faithfully,  
MARY PINKHAM, MARY E.  
WAAGEN, Hon. Joint Secretaries.  
Alberta Provincial Branch.

## GOVT. CONSIDERING FIXED WHEAT PRICE

Many Obstacles in Way But Prob-  
lem is Live One at Ottawa.

The question of a fixed price for  
wheat is a live one in political cir-  
cles here. There are many demands  
from Western growers that the price  
be fixed. At the same time there  
are other Westerners, such as the  
U.F.A. body, who believe that a fixed  
price would work harm to the cause  
of the organized farmers. There is  
nothing whatever settled about the  
question, which is receiving atten-  
tion.

## Letter to Mary

Dear Sister Mary:

Tom and I reached a most momentous conclusion  
the other evening. Our children are growing up—  
very fast it seems to us—and our eldest, Florence,  
has just turned her 18th birthday. Very naturally,  
at that age she wishes to entertain her friends; and  
desires to take a proper pride in welcoming them to  
a worthy home. Then too the others; Bobby now 16  
years; Fred, Mary, and Beth are getting to an age  
of realization of just what a home means to them.

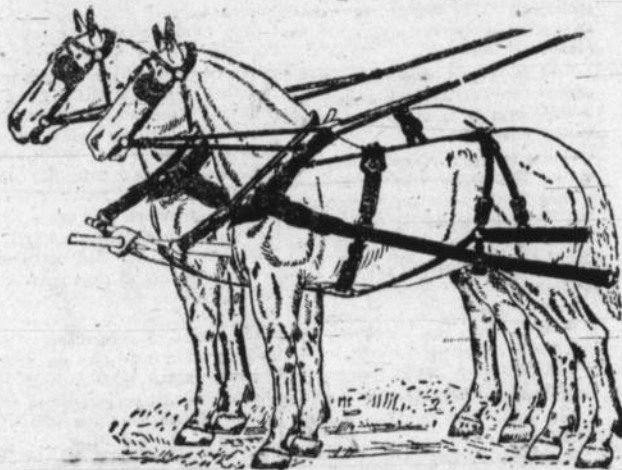

As Tom has said, a home is not a business and  
money-making proposition, but pretty nearly the  
opposite. For the sake of Florence, we cannot  
afford to wait another month, but we will let the  
contract within the next 10 days. We have nearly  
completed our plans, and gone very thoroughly into  
the idea with the local lumberman, whom Tom  
knows very well. Can't you imagine my excitement  
in the coming realization of my dreams of a real  
home means.

Will be over soon to show you the delightful  
pantry and linen closet planned.

Your Loving Sister,  
Florence

# PRINCIPALS REPORT VULCAN SCHOOL

Announcement of Vulcan Public School—School Board, Geo. Robson; A. J. Flood, R. W. Glover, Secretary pro tem, A. J. Flood.

Teachers—J. E. Davis, Principal; Miss Casey, senior; Miss Travis, intermediate; Miss Martin, junior; Miss Fair, primary.

Beginners classes organized only in September and January, at beginning of Fall and Spring terms respectively.

Grades taught I. to XI., the latter with Latin or French being junior matriculation and admission to Provincial university.

Complete equipment for teaching Science in High School grades.

Special attention given to music and class singing, in all the grades.

Janitor service continuous, insuring even heat and proper ventilation.

Sanitary drinking fountains and indoor sanitary toilet installed.

School telephone No. 24, Ring 2. Parties are requested not to telephone the school during school hours, except in case of emergency, the public are asked to make their telephone calls before 9 a.m.; after 4 p.m. or between 10.45 a.m. and 11 a.m.; or between 2.45 p.m. and 3 p.m.

School nurse in attendance daily.

Pupils and teachers suspected of contagious disease are sent home, and are expected to consult a doctor at once, whose certificate must be presented to the principal for the pupil to gain readmission.

Parents and guardians are requested not to allow their dogs to accompany their children to school, as dogs at school are a nuisance that cannot be tolerated.

Fees for pupils outside the school district, one dollar and a half per month, payable monthly in advance, to the principal.

Complaints that cannot be adjusted by the teachers must be presented in writing to the secretary if complainant desires action by the school Board.

## Equipment Needed:—

Clock.  
Visitors chair.  
Stick for lowering windows.  
Three waste paper baskets.  
Two dictionary stands.

## Improvements Needed:—

Door from Miss Martin's room into Hall.  
Wall register in new partition.  
East gate placed in N. E. corner.  
Primary room—Cupboard enlarged to hold surplus library books.  
Porch over front gate.

## Equipment Recommended:—

Playground apparatus.

## Other Recommendations:—

That a school announcement be published regularly, the attached being a suggestion.  
That some steps be taken to enforce Truancy Act.

## CANADIAN PHOTOPLAYS LTD.

Pre-subscribed stock of the recently organized Canadian Photoplays, Ltd., has been allotted. The shares are \$100 each and limited to \$1,250 shares, of which \$30,000 has been subscribed. The following are the officers: R. C. Thomas, president; R. J. Lydiatt, vice-president; J. B. Sutherland, secretary-treasurer; W. R. Marshall, Clive Betts and H. P. Carver, directors.

# NEW FARMERS' COMPANY STARTED—REDCLIFFE

## Meeting Will be Held Here Saturday To Explain It To Farmers

The Dauntless Manufacturing Co. of Redcliffe, Alberta, already has nearly a thousand farmer shareholders, according to information given by its officers to the Calgary press. This would seem to indicate that this newly created concern will before long be supported by a vastly greater number of shareholders throughout the whole Province, for it is understood that the management of it is at the present time initiating a campaign which will go into every highway and by-way of Alberta, so to say.

In view of these things, and more especially because of the number of shareholders in this district, it might be well to review briefly the workings of this Company.

The Dauntless Manufacturing Co. was organized probably not more than eighteen months ago. It was initiated by certain farmers of the gas belt of Southern Alberta with the idea in mind of manufacturing farm implements, repairs and the other steel products used on the farm and in all agricultural pursuits.

Although it is capitalized at only \$125,000 and although not much more than half of that issue has been disposed of, if that much, the Company management has already purchased one large brick plant at Redcliffe, Alberta, and has built another of similar structure. It is installing the open hearth method of furnace treatment of iron, the very latest method, and will have a capacity of twenty tons daily.

The Company aims at being able to turn out the finished product in steel castings within the next few months. It has ambition along other iron and steel industrial lines and is certainly receiving warm support. The president is D. W. Brown of Medicine Hat and Redcliffe; Managing Director, J. L. Prout of Redcliffe and its directors and other officials are mostly leading agriculturalists of the Province. Its Superintendent is a man of years of experience in this industry.

Mr. Prout, who was in Vulcan this week, made arrangements for the holding of a meeting on Saturday evening at the I.O.O.F. Hall. The meeting is for the purpose of setting before the farmers the idea of the Company.

## LOCAL STOCK SHIPMENTS

Murphy of Vulcan, had a load of cattle in the yards on Tuesday, consigned to P.-D.-H.

There was a load of cattle up from Vulcan on Tuesday, which Fox shipped to P.-D.-H.

J. W. McLaughlin shipped a load of cattle from High River to the coast on Wednesday.

C. Sage, of High River, had a load of cattle up on Wednesday, billed to P.-D.-H.

Rockefeller had a load of hogs up from Blackie on Wednesday.

Len Hart shipped a mixed car of hogs and cattle up from Blackie on Wednesday, billed to P.-D.-H.

C. E. Elliott had a couple of loads in Thursday, consigned to P.-D.-H. Mr. Elliott has disposed of all his holdings in the Blackie district, and will make his home in Calgary for a time at least.

A. A. Adams, of Champion, had a load of cattle on the market Wednesday, consigned to Wade & Jack.

# FRUIT PRICES HIGHER DURING COMING SEASON

Fruit prices on the prairies during the coming season are sure to be considerably higher than they were last year, according to the opinion expressed to the Examiner by J. A. Grant, prairie Markets commissioner for B.C., who was passing through Calgary recently.

There are several reasons for the advance, one will be the possible advance in express rates and the other which is a certainty, is the lively demand which has been created for this year's yield, which has resulted in contracts already having been let for strawberries, raspberries, loganberries and cherries, and all at strong prices. This stock is practically all being taken up by the jam makers, which will enhance the value of the fresh fruits.

Mr. Grant estimates that half the strawberry crop has been contracted for at 16 cents per pound. The largest of these contracts being that of the Gordon Head Association, which has arranged with the Wagstaff Company, of Toronto, to take 90 tons of this crop. The same amount will be delivered to the Empress Jam Factory, Vancouver, by the Keating Association. Japanese growers on the Mainland are likely to dispose of their berries to Eastern canners.

The Doukhobors have contracted their raspberries, at Brilliant, B. C. at 10 cents per pound on the vine, which is equal to about 16 cents. Other raspberry contracts have been let on a basis of about 17 cents, with the berries suitable for jams at 18c.

Loganberries have been contracted at about the same prices. Gordon Head Association has contracted 2,500 crates of cherries at \$2.25 f.o.b., Victoria, to Manitoba retailers.

—Market Examiner.

## MINNOWS FED TO POULTRY AND HOGS

It may interest some people to learn that some residents near Bear Lake, reap considerable profits from the sale of small fish, minnows, 1½ to 2 inches long. According to reports one farmer caught 50 wagons load of these species of the finny tribe whilst others combined caught as many as 50 loads, making a total of 100 loads taken from the lake this winter. The fish were dipped up by small nets and cast on the snow, where, when frozen into solid masses, prospective buyers obtained sleighs loads for \$4.00. The fish are fed either raw or cooked to pigs and poultry, both of which thrive on the diet, the former increasing the adipose tissues rapidly, whilst the latter show their satisfaction and gratitude by keeping up the egg basket.

## ALBERTA SWINE BREEDERS HOLD ANNUAL MEETING

Members of the Provincial Swine Breeders' Association at their annual meeting in Edmonton last week passed a resolution demanding that a premium be paid for high-class or purebred bacon shoats at all packing plants and stockyards in the Province but this was afterwards modified somewhat as the matter will be taken up with the packing houses.

The meeting was well attended and though there had been a year of hardship and many discouragements for the swine raisers, they are optimistic regarding the future and with the prospects of a lower price on grain it is felt that hog raising will be put on more solid ground.

# All Farmers Attend!

On next Saturday evening at 8 o'clock in the I.O.O.F. Hall, at Vulcan, Mr. R. W. Trotter, one of Canada's most brilliant speakers, will address the farmers and business men of this community on the Farmer's Manufacturing Association. This is an organization meeting. All are invited to attend. It will repay you tenfold to hear what Mr. Trotter has to say. Don't forget the date, March 15th.

# Big Dance,

Oddfellow's Hall  
VULCAN  
Monday March 17

# U. F. A. Meeting at the I.O.O.F. Hall, Vulcan Saturday March 15,

Commencing at 2:30

SPEAKER: JAS. WEIR; M. L. A

Who will address the meeting on what is being done at the Provincial Legislature, Edmonton. Everybody cordially invited.

## A STRENUOUS LIFE

Under the severe strain of constant duty, by day and by night, since the beginning of the influenza epidemic in High River and district, Dr. Buswell was obliged to give up his practice for a few days this week, owing to a very severe cold and a generally run down condition, caused by excessive work and exposure in connection with his practice. In the meantime the town and district was without medical advice, and with an alarming amount of sickness, throughout the town and country there was much anxiety among those who had sickness in their homes. Dr. Driver's services was also obtained and he did very good work in caring for the sick, but there is yet great need of another doctor in our town in order to give proper medical attention to the sick. When one considers the amount of work performed by Dr. Buswell throughout this field it is to marvel that he has stood the strain so long and there are many of his patients now enjoying good health, who await with anxiety a report of his complete restoration to good health.

## NEGLECT HUMAN LIFE

When an epidemic breaks out in any part of the Province among animals the Government immediately sends a corps of expert veterinarians to combat with the disease. No expense is spared and invariably the prompt action on the part of the authorities means the suppression of the epidemic. In this connection the Government is to be highly commended. On the other hand what a lamentable condition exists with regard to the health of the human race. Our governments have spent millions of dollars in the past for immigration work, quite unmindful of the fact that right at home they were neglecting to look adequately after the home born. The mortality among babies in Alberta is appalling, all due to the lack of medical attention, hospital accommodation, etc. And our governments are loath to spend any money for the betterment of conditions in rural communities. At the present time more attention is given to hogs than to human lives. It is a disgrace.

## CALGARY'S MAYOR ENDORSES THE WAR SAVINGS METHOD

Prominent Alberta Municipal Leader Declares That Thrift Will Solve Many Big Canadian Problems

Mayor Marshall of Calgary is known far beyond the limits of his own city as a leader in public movements. For this reason his hearty endorsement of the War Savings Campaign is of importance. In a recent statement he says:—

"What is the very essence of Canada's vital need to-day? To my mind it is Thrift.

"The great problem is that of helping Canada to its financial feet and it is my firm conviction that if every one of us is saving and industrious, the Dominion will become an agricultural and industrial and a commercial country of tremendously enhanced importance.

"For I am satisfied that if we are thrifty we shall be able, of ourselves, to develop the illimitable natural resources of Canada, the fringe of which has been but touched. Sustained Thrift will aid Canada to become one of the paramount commercial, agricultural and industrial factors of the world.

"Getting started, as I have said, is the obstacle, but the Thrift Stamps at 25 cents and the War Savings Stamps at 54, enable the people to surmount this barrier.

"They provide a fine foundation for saving by children. Get the kiddies started and the future will take care of itself. Get the older people started and they will take care of the present, for both the children and themselves.

"Canada could not embark upon a savings campaign more easy, more profitable and more conducive to the cultivation of national Thrift."

## VOTING FOR MARQUIS M. D. COUNCILLORS

The following is the list of voting by polls for councillors for the council of the Municipal District of Marquis.

Poll No. 1—residence, E. Synge R. O. Burke 2, Henry Deitz 10, J. H. Lucas 14, J. G. Rowe 13, Herman Soanke, Jr., 4, J. Shouldice 7, D. Sinclair 14.

Poll No. 2—Sunny Glen—Deits 3, Lucas 27, Rowe 27, Spanke 21, Shouldice 6, Sinclair 28.

Poll No. 3—residence F. Baden—

## BLACKIE NEWS

The L.O.O.F. Dance on Friday evening last, held in the auditorium, while not largely attended proved to be a very enjoyable function. The dancing was thoroughly enjoyed by all and the supper served was par excellence.

In the Red Cross report for the High River Constituency we observe with considerable pleasure that Blackie district contributed the sum of \$4686.22.

John Johnson, of Blackie district blew into High River last week and while here he had a whale of a time. He got a hunch that he was a horse trader and buyer, and he bought and traded horses, sleighs and harness and he issued cheques promiscuously on the bank at Blackie. He was doing a land office business until the cheques were returned from Blackie marked "N.S.F." and then the fun commenced. Provincial Police Houghton interviewed Johnson and pointed out to him the seriousness of issuing cheques without having a balance in the bank, but the warning was not heeded. Finally Johnson appeared before Magistrate McCorquodale, and a number of his creditors, and upon Magistrate McCorquodale's warning to him of the danger he was running in, he finally consented to the sale of several of his nags to defray the total amount called for by the cheques issued. It was Mr. McCorquodale's first case as a magistrate and he maintained a very fair attitude in his bearing of the case. He urged Mr. Johnson to go back to his farm work at Dinton and leave the glare of the horse trading business, otherwise he would lose the earnings of three years in short notice.

Burke 2, A. N. Blue 2, Deitz 16, Lucas 20, Milo Munro 6, Rowe 29, Spanke 22, Shouldice 21, Sinclair 29. Poll No. 4—Milo Hall—Burke 61, Blue 25, Deitz 8, Lucas 18, Munroe 24, Rowe 2, Spanke 38, Shouldice 59, Sinclair 53.

Poll No. 5—votes all spoilt. Poll No. 6—residence L. Shatto, Indian Reserve, votes all spoilt.

Total number of votes for each candidate: Burke 65, Blue 27, Deitz 37, Lucas 79, Munroe 30, Rowe 71, Spanke 85, Shouldice 93, Sinclair 134.

The Hail Insurance By-Law carried with overwhelming majority, the total vote being 122 to 10.

# VULCAN AND W. S. S.

As a result of the visit of Sergeant Gittus and the formation of W. S. S. committee Thrift Stamps are going to be brought directly to the notice of the people of Vulcan and district. Whereas it has been possible to obtain Thrift Stamps at the Post Office and Banks only, now they are in every store and place of business in town

They will be offered to you for your change when you make a purchase, and on every occasion you will be asked to take Thrift Stamps instead of money

This will help you to save and the country to finance. Support the move; have a Thrift Stamp Card yourself and get every member of your family to have one as well

## Reduce Farming Expenses

You can do this by getting your Gopher poison now and start a Spring drive on the Gopher family before the little gophers arrive. Use the following:

Kill-em-Quick,	60c. and \$1.20
Gophercide,	\$1.00
Strychnine, per oz.	\$3.00

ALBERTA

## GENERAL TOPICS

**Snow is a Great Thing.**—C. S. Noble the well known farmer of Southern Alberta has expressed the opinion that the recent snowfall is going to be a great thing for the Province. There has been no frost in the ground this year, he says, and the melting snow will put the ground in good shape for the Spring work. He says that farmers will get a good start on the Spring work in any event this year.

**Bitter Against Ross Rifle.**—What Sir Sam Hughes said last week in praise of the Ross Rifle does not please the Calgary members of the G.W.V.A. One returned man, commenting, said, "Why, if Sir Sam had been with us in the Ypres salient in 1914 and the beginning of 1915 he never would have referred to that wretched gun again; in trench warfare it was absolutely useless," and another man speaks of how the soldiers abandoned their Ross rifles and hunted for Lee-Enfields.

**Seven Thousand Workless, Toronto.**—According to J. A. Miller, superintendent of the Ontario government employment bureau, over 7,000 men in Toronto are out of employment at the present time. "Most of these are returned soldiers or men who have been employed on munitions," he says.

**German Made to Kiss Union Jack.**—The newly formed Imperial league pledged to free the district of all alien enemies performed its first duties at Peniticon, B.C., on Saturday, when Louis Degero was made to get out. Shortly after the war started he alleged he was an officer in the German army and slipped out to the States, but slipped back to Peniticon last week. He was taken from his hotel, marched to the post-office, and before the crowd compelled to kneel in the mud, bare his head, and kiss the Union Jack, after which he was shipped out on a mail car.

**Alberta Loses \$10,000,000 Annually.**—Lethbridge coal operators estimate that \$10,000,000 is sent out of Western Canada annually for Pennsylvania soft coal for the Manitoba market which might be supplied by the Alberta mines if a revision of freight rates could be secured and other difficulties adjusted. They are now asking the Alberta Bureau of Industrial Research to take up this problem, and if a solution is found Alberta mines will have a market for two million tons more coal annually.

**Will Daylight Saving be Supported.**—From various sources comes the report that Daylight Saving is again likely in Canada this year. While this report will not gratify the farmers, who are not in favor of the idea,

saying it does not help them, business circles generally are pleased with the reports.

**U.S. Men Riot in London.**—A riot in which American soldiers and some Australian were engaged, occurred on the Strand, London, on Saturday afternoon last. Three or four of the Americans were injured in police baton charge. Seven of the Americans were arrested. An incorrect report that one of the Americans had died while in the police station caused a demonstration which, in turn, had to be broken up by a police charge.

**Seattle Men Return to Work.**—It is definitely stated that twenty-one shipyard unions at Seattle which have been on strike since January 21st, have voted to return to work. More than 25,000 workers are involved, all affiliated with the metal trades council. Work was resumed in some yards the beginning of this week.

**Barons Man Fined; Liquor.**—Sebastian Keller was on Saturday last fined \$200 and costs at Barons for selling liquor on February 14th. There were two witnesses for the Crown and one of them turned hostile. The three witnesses for the defence contradicted each other in cross examination. Constable Moriarty of the A.P.P. laid the information.

**Sam Hughes Slates Flavell.**—In the Dominion House last Tuesday Sir Sam Hughes made a sweeping arraignment of the Union Government, referring to it as the "machine-made affair of Sir Joseph Flavell and the city of Toronto." Sir Sam stated that Sir Joseph Flavell had made \$5,000,000 a month for contracts through his influence as head of the munitions board. He declared that Sir Joseph had made \$100,000,000 during the four years of the war.

**G.T.P. Goes to Receiver.**—Hon. J. D. Reid, minister of railways, has been appointed receiver of the Grand Trunk Pacific railway system. The appointment follows an official notification which Sir Thomas White received on Thursday from the vice-president of the G.T.P., that in view of the fact that increased rates had not been sufficient to meet operating expenses, the company would not operate after March 10th.

**Canucks Riot at Wales Camp.**—Riot broke out among the Canadian soldiers at Kinnel camp, Rhyl, Wales last week, the trouble being that the men thought they were not getting back to Canada quite as fast as had been promised. Five men, one of whom hailed from Alberta, were killed in the rioting. The inquest will be held on Thursday of this week.

### OUTLOOK FOR HIGH PRICED WHEAT NOT GREAT

The outlook for a high price of wheat for the coming season is not very favourable. According to the conclusion reached by Norman Lambert, secretary of the council of agriculture, in a story written in Paris and published in the Albertan this morning, the wheat crop of 1918 will not be exhausted before the new crop comes in. The guaranteed price by the United States of the wheat crop of 1919 means a very large acreage, and under ordinary circumstances an enormous crop. There is every reason to suppose that the supply of wheat for the next couple of years will be adequate and that the price of wheat will come down.

It is not likely that the Canadian Government will follow the example of the United States Government by guaranteeing the price of the crop of 1919. Such a policy would mean an enormous expenditure for the taxpayers of the Dominion, and increase the Canadian debt by at least 20 per cent over the present high figure at which it stands. The Canadian farmers to their credit, have made no demand for any such outlay.

But if the Canadian wheat growers are patriotic enough to sacrifice what might reasonably be demanded, and which, without the asking, was conceded by the United States government, is it not the duty of the Canadian manufacturers and others to remove every obstacle which prevents the grain grower from producing as cheaply as he can? With wheat at \$1 a bushel what may be the price next autumn, the way of the grain grower will be hard enough. He cannot make very good wages in an ordinary year of that figure, if he has to continue to contribute the extraordinary toll, in the form of surtax to the manufacturer for the implements which he buys to produce his grain.

When the price comes down, the tariff issue will be more interesting than it is at the present time.

—Calgary Albertan.

## AUCTION SALE

N. E. Quarter, Section 13, Township 15, Rge. 22, 12 1-2 miles East and 1 1-2 mile North of Champion. Commencing at 11 o'clock

### Tuesday Mar. 18,

### NOTICE

### To Employers

The Workmen's Compensation Act, 1918, provides that every employer of labor coming within the scope of the Act, shall forward each month a statement of his payroll to the Workmen's Compensation Board, at Edmonton.

As the Act is now effective, employers should at once communicate with the Secretary of the Board, who will forward such forms and information as are necessary.

THE WORKMEN'S COMPENSATION BOARD

Edmonton, Alberta.
